

## Aluminium TITANIA Multigrip Rivets

Titania rivets are a simple and cost effective method for securing two or more components together from one side. Ideal for applications where the join varies in material thickness and would require several rivet sizes. The extensive grip range capability allows design flexibility and reduced rivet inventory. Typically used in cool room assembly, the Multi-Grip Rivet is a general purpose fastener ideal for use across various applications.

**Material:** Body: Aluminium Alloy  
Mandrel: Low Carbon Steel

**Finish:** Body: Titania  
Mandrel: Zinc Plated

Diameter mm	Part Code	Grip Range mm	Hole Size (nom) mm	A mm	B mm	C mm	D mm	E mm	Shear (min) KN	Tensile (min) KN	Box Qty pcs

Dimensions and specifications are subject to change without notice. Check your distributor for the latest data sheet. The test data provides approximate strength values averaged in multiple tests in various materials and thicknesses. We recommend testing your application when an exact strength figure is required, or the load to be applied comes close to the published data.
