

Aluminium Dome Head Multigrip Rivets

Multigrip rivets are an ideal option for applications where the material thickness varies and several different rivet sizes are required. The expansive grip range allows for design flexibility and reduced rivet inventory.

Material: Body: Aluminium alloy
Mandrel: Low Carbon Steel

Finish: Body: Natural
Mandrel: Zinc Plated

Dimensions and specifications are subject to change without notice. Check your distributor for the latest data sheet. The test data provides approximate strength values averaged in multiple tests in various materials and thicknesses. We recommend testing your application when an exact strength figure is required, or the load to be applied comes close to the published data.
