

Aluminium Dome Head Bulb-Lok Rivets

Bulb-Lok Rivets feature a unique dual locking system ideal for applications that require high resistance to vibration, increased shear strength and a weather tight finish. Designed to form a bulb on the blindside, this distinctive feature increases load spread, prevents pull through and is widely used when securing Thick-to-Thin components or sheet type products. Available in a wide combination of diameters, grip ranges and materials.

Material: Body: Aluminium
Mandrel: Aluminium

Finish: Body: Clear Chromate
Mandrel: Clear Chromate
