

FAR® RAC230

Rivet Setter | Industrial Pneumatic

The **FAR® RAC230** is a heavy duty in-line air riveting tool ideal for workstations either bench mounted or suspended by a spring balancer. It features rivet holding in the nose and vacuum extraction of the spent mandrels to suit vertical installation applications. A foot control can be added for hands free operation.

Setting Capacity

Spent mandrel guard ensures safe operation

Option for conveying the spent mandrel via a plastic tube to a collection container

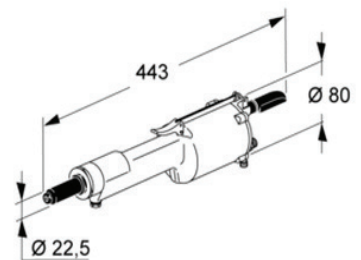

Lever trigger provides comfortable and non-slip grip

Airline fitting: 1/4" BSP thread

One hand operation - rivet retained in the nose by adjustable air suction

Unique hydraulic oil refill system

MADE IN ITALY

Specifications
