

The Rivtec® AR102-V is a versatile, mid-range air hydraulic riveting tool designed for high-volume production. Capable of installing rivets from 2.4mm to 4.8mm in all materials, it features an adjustable vacuum extraction system and pneumatic shut-off valve for efficient operation. The lightweight, ergonomic design ensures user comfort while delivering strong, reliable performance.

Material	Thickness Range (mm)
ALUMINIUM	2.4mm - 4.8mm
STEEL	3.2mm - 4.8mm
STAINLESS	3.2mm - 4.8mm
MONEL	3.2mm - 4.8mm

Specifications		Package Contents
Product Code:	RT-AR102-V	Nosepieces for 2.4mm, 3.2mm, 4.0mm & 4.8mm Diameter Rivets
Weight:	2.09 kg	Spare Jaw Set and Vacuum Tube
Length:	278 mm	Hydraulic Oil Bottle and Injector (Supplied without oil)
Operating Air Pressure:	80 ~ 95 psi   5.5 ~ 6.5 bar	2 Service Spanners and Brush
Pulling Force:	9 kN @ 90 psi / 6.2 bar	Operating and Maintenance Manual
Stroke:	18.0 mm	Made in Taiwan
