

Rivtec® RNT-120

Pneumatic Rivet Nut Tool

The RNT120 is a simple, powerful and cost effective tool capable of installing rivet-nuts in all materials up to M12. This tool will suit a jobbing or repair type environment or a low volume manufacturer.

Stroke length is easily adjustable from 0 - 9mm. Speed of operation can also be reduced for operators needing a precise pull cycle on delicate work pieces.

Setting Capacity
