

## SRC A8

### Pneumatic Riveter

The SRC A8 is a high-value air hydraulic riveting tool featuring a lightweight, ergonomic design for easy operation and reduced operator fatigue. The A8 has the capability Structural Rivets up-to 1/4" in diameter and offers a longer stroke, robust performance, minimized noise, and adjustable vacuum airflow for enhanced efficiency.

### Setting Capacity

Removable nose holder for quick and easy cleaning and maintenance

Non-protruding trigger for easy and safe operation

Reduced body size and weight of the tool for flexible and ergonomic operation

Pneumatic on/off valve allows for continuous airflow without any break or stops

Spring balance attachment for fatigue free operation

Adjustable Vacuum Extraction allowing for single hand operating and rivet nail retention

Transparent Mandrel collecting system

Easy to access nosepieces, organised to reduce loss of parts.

Specifications		Package Contents
Product Code:	RT-A8	Nosepieces for 4.00, 4.80 and 6.40mm Standard Rivets
Weight:	1.55 kg	Nosepiece for 6.40mm Structural Rivets
Length:	310 mm	3mm Allen Key, Hydraulic Oil and Priming Syringe
Operating Air Pressure:	75 ~ 100 psi   5 ~ 7 bar	Spare set of Jaws, Jaw Case, Spring and Jaw Pusher
Pulling Force:	15.0 kN	Airline Fitting
Stroke:	26.0 mm	Operating and Maintenance Manual
